PARIS, July 14.—Senator Depew yester day emphatically denied the report published in New York that he promised indemnity to the Equitable in case of loss over the loan made by that company to the Depew Improvement Company, in regard to which the senator had clearly stated his position in an interview printed Thursday,

"I never made any such promise," said Mr. Depew, When asked whether he de-sired to make a statement in regard to an agency telegram which was printed in the Daily Mail, and which said that the out-Daily Mail, and which said that the outcry raised against Senator Depew marked
the first stain upon his long public career, Mr. Depew replied that he saw nothing to add to what he had already
said in regard to the contention with the
Depew Improvement Company, and the
loan made to that organization by the
Equitable, "What I have already said,"
Mr. Depew remarked, "was sufficient to
show that there had been a misrepresentation of the facts in the cage."
One has only to recall Mr. Depew's long

Col. S. H. Hardwick Delivers Address to South Carolina

Press Association.

(By Associated Press.)
WHITESTONE LITHIA SPRINGS, S.
C., July 14.—Proposed rallroad legislation
by Congress and the steady advance in
general conditions in the South were discussed in a speech made here to-night by
Colonel S. Iš. Hardwick, passenger traffic managér of the Southern Rallway.
The occasion was the thirty-first annual
meeting of the South Carolina Press Association. M. L. Smith, Speaker of the
South Carolina House of Representatives,
made an address.

made an address.

Colonel Hardwick opposed the enactment of the Esch-Townsend bill, urging that such legislation would put the South back for many years. He said

South back for many years. He said in part:

"And now I am come to appeal toy you, our brethren of the press of South Carolina, and through you to the press of all the South, not to allow anything to distract us from our work of advancing the best interest of the South. Hear both sides, or all sides, of this momentous question of committing to a paternal government the right to circumscribe your development; the right to say what markets you may reach, and of saying to the South, "Thus far shalt thou go, but no farther." Not even your best friends, the railroads, shall be allowed to help you beyond such dictum of this proposed most radical measure.

"The South must be loyal to her own."

measure.
"The South must be loyal to her own

ium of this proposed most radical measure.

"The South must be loyal to her own interests and take care of her own needs. She must protect her own agricultural commercial, and industrial necessities, including her railroads.

"This rate-making power by a bureau of the government would affect our whole blessed land. But I consider, as a business proposition. It must affect the South at this time more than any other section, because the South possesses such limitless undeveloped resources of such varied and such needful kinds that no other section can much longer have the advantage if the South is given a fair showing and a reasonable opportuvity. Now, at this critical functure, if left free, she will soon equal, aye, even surpass, all other sections in her triumphant development.

"Then let us do nothing to hamper or hinder that progress of the South. Let us not be disturbed by the envyling of other sections, but let us emulate the progress of other sections of our great country. Let our watch word ever he that the South hath need of her sons. Not in narrowness nor in selfishness, but in a spirit of the hroadest patriotism, let us remember that here is our home and this is our immediate responsibility, indeed, our glorious heritage. Our responsibility is to advance the progress of the South and not to permit such national legislation, or any other legislation, to cause be done over again, with increasing burden and diminishing encouragement."

WEEKLY TRADE REVIEW

WEEKLY TRADE REVIEW

(By Associated Press.)

NEW YORK, July 14.—Bradstreet's tomorrow will say:

Midsummer influences still govern general trade and industry: but better weather and crop reports make for quite optimistic trade reports in the surplus cereal-producing sections of the West. Very favorable reports as to fall trade orders come from nearly all points west of the Alleghenies, north of the Ohio River, and thence westward to the Pacilia. Large, though, except in a few cases, not record-branking crop yields now appear reasonably assured in that entire region, and there is a general agreement that fall busipess already booked exceeds a year ago at this date. Less assurance is found in the reports from the western half of the South, where it is feared serious damage hus been done by incessant rains to cotton, wheat and other grops, this particularly off-setting the favorable influences of the recent heavy advance in cotton prices. A point descripting note is the widespread activity in demand for cotton goods of nearly all kinds, which accepts steady advances in prices and clamor for more goods. Business fullures for the week number 166 against 208 in the like week of 1904.

Department of Agriculture Begins Investigation of Charges Against Trust.

SPECIAL AGENTS SENT OUT

Publication of Tobacco Statistics of the Several Districts to Be Held Up.

(By Associated Press.)
WASHINGTON, July 14.—Through the receipt of numerous communications from the South and statements appearing in the press at various times that the statistics of the Department of Agriculture on tobacco were being manipulated in the interests of the so-called tobacco trust. Secretary Wilson has begun an inquiry into the subject. Pending the investigation the publication of the tobacco statistics of

the several districts will be held up, al-

though the regular monthly figures by

States will be given on Monday next, It was stated at the department to-day that special agents have been sent to the dark tobacco districts of Tennessee and dark tobacco districts of Tennessee and Kentucky for the purpose of verifying or correcting the department's figures. This action Mr. Hyde, the chief stalistician said, was in deference to the sentiment which had been engendered that the department's figures were wholly incorrect, Mr. Hyde has been given direct charge of the investigation which, it is expected, will be concluded within two or three weeks.

Break in Cotton Prices.

(By Associated Press.)

NEW YORK, July 14.—After a comparatively quiet and steady morning there was a renewal of active selling in the cotton market, which caused another severe break in prices, and carried the trading range more than \$5 a bale below the light point of last Monday. Continued reports of free spot offerings and good weather encouraged bearsh operations, and the decline forced heavy liquidation. October, which had closed last night at 10.58 and sold at 10.68 this morning, broke to 10.26 in the afternoon, and the general list showed a net decline of 30/234 points. In the late trading active covering caused a sharp rally, and the market closed firm at a net loss of only \$6/11 points. The sales of the day were estimated at 600,000 bales. (By Associated Press.)
